Investment project on 2011-2015

№ s/n	Measure name	Planned volume of investments, mln BYR
1	Modernization of mill GF2171 –C5	60,0
2	Reconstruction of boiler house with boiler installation on solid fuel	144,0
3	Change of outdated technologies, efficiency increase, quality by means of mixer installation of intensive hashing with two whirling heads Q=60tons/h	156,0
4	Implementation of automatic check system of physical-mechanical properties of mixture on the mixer of intensive hashing of small founding shop	120,0
5	Modernization of melting furnace of cupola type Q=5 tons/ h	535,0
6	Installation of core marker produced BELNIILIT on 30-50 l on Gold-box- amin process	853,5
7	Installation of thermal furnace SDO	227,0
8	Purchase and installation of two steam generator in the shop №18	22,0
9	Installation of experimental shortblast cells of load capacity up to 500kg in the small founding shop	292,6
10	Equipment for conduction of outside furnace processing of cast iron melt	300,0
11	Equipment for cleaning of foundry (with spill canals)	300,0
12	Introduction of screw compressor system of efficiency 26 m ³ /min	170,0
